If you want to watch free videos online you can think straight away about YouTube, which offers a huge variety of videos, but many other websites offer free videos. You can find them anywhere; You just need to know where to look. These include professionally produced online videos adapted to a specific audience, video clips created by users, and webcasts of television shows and movies. You may need to enter an email address to open an account on the website, but you should beware of any site that asks for information about your credit card. Ashley Nicole DeLeon/ Lifenwire Many new and old TELEVISION programs are available online through web websites or video aggregators. Crackle provides free streaming movies, TV series and original programs for all your devices. Search by genre or title, or choose one from a video highlighted daily. High-quality content can be suspended and restarted on other devices or queued to be viewed in the future. ShareTV offers thousands of TV shows (retro and current) and movies available for free streaming to your computer or mobile device and includes shows from an extensive list of networks around the world, including popular networks in the United States. Cartoon HD. Despite its name, Cartoon HD is not limited to cartoons. Use the site to watch unlimited TV shows and full movies online for free. This site is not the venue for the show; it scans the internet for available online videos, TV shows and movies. You need to know how to download and install APK files to use this site. You can watch free videos online from educational networks such as National Geographic. Other websites, such as the Annenberg Foundation, offer educational videos created specifically for the Internet. The PBS website has a collection of educational videos that you can watch for free online. These shows appeared initially on public broadcasting and cover a wide range of educational topics. TED offers a fascinating collection of free video conversations from the world's leading thinkers and producers. Some video sharing websites offer user-generated content along with professionally produced videos. Vimeo is a video sharing website with short shapes and long video forms in a wide range of areas, including comedy, documentary, music, sports, animation, training, and more. The site offers a free account along with paid. DailyMotion is a video sharing site packed with random video comments from funny to serious. Although not as well known as YouTube, it is one of the largest video sites in the world. Watch free music videos online on websites that cater to all musical tastes. MTV is the grandfather of music video spots and is still on it. This site is for free videos of popular recording artists. If you like comedy, mystery, documentaries or something completely different, you can find a large selection of movies online for free. In this article, I take a look at the 12 best websites and resources to watch free movies. I visited every one of the websites listed below and I checked a few videos from each to provide quality, check on advertisements and see what's available on free charging. Where to watch free movies online When you start looking for free movies online, it won't be long before you start coming through less-than-reputable websites. Some may actually require a paid membership or subscription, while others provide access to pirated content. However, there are several websites, apps and streaming services that you can use to watch movies and TV shows legally and for free. Among them are Crackle, Roku Channel, IMDb TV, Tubi, Vudu and more. If you're looking for a complete list of free ways to watch movies that you usually have to pay, you probably won't find it on this list. Instead, I've compiled 12 perfectly legal and free ways to watch movies online - most of which are supported by advertising. Note that Ad Pain is rated from low to high depending on the length and frequency of disruptive advertising. If you're looking for a completely ad-free experience, be sure to check out Kanopy or Hoopla, which are powered by educational institutions. Streaming service Best For Powered By Ad Pain Kanopy Documentaries and Educational Content Libraries, Independent Films, World Film Best For: Documentary And Shows Advertisements Acces independent Films Advertisements High Vudu Hidden Gems Advertisements Castost crunchroll Anime Advertisements Low Yidio Variety Other websites (aggregator) Options When visiting one of these websites or download apps, possibly you'll have to create a free account to continue. However, you don't need to download or enter payment information to access free content. As a last resort, you may have to disable the ad blocker if you're looking online. Below you will find details of 12 different places where you can legally stream free movies and TV shows. Kanopy Genres: Classic Cinema, Comedy, Drama, Documentaries, Independent Films, World Film Best for: Documentary And Educational Content Platform: App (phone/tablet), computer (website), TV (app/casting) Kanopy partners with thousands of public libraries and universities to provide ad-free shows and movies. You can use a library card or the contents of a school email address on your TV, mobile phone, tablet, or online. I entered my library card number, then used his name and email address to create a Kanopy account. Once you've logged in, you can watch up to five movies a month. In the top right corner of the screen, you'll see a number indicating how many credits you have left in a month or how many programs you can watch. You can enjoy unlimited plays in Children's section. In addition to movies, Kanopy also provides access to documentaries about culture, art, business, education, global research, healthcare and more. As I scrolled through the selection, I didn't see many titles I learned. However, the wide selection of indie films, documentaries and world cinema was enough to keep me browsing through a few pages of interesting titles. Once you have found a movie that you would like to watch, you can click on the title for more information related titles and comments, which can often include helpful recommendations. Most videos also include ratings, subtitles and transcripts. Kanopy is available as a mobile app on iOS, Android and Amazon Fire devices. You can also access the TV app through Apple TV, Amazon Fire TV, Android TV, Samsung Smart TV, Roku, Telstra TV or Chromecast. If you don't have access to any of these devices, you can also connect your computer to your TV using an HDMI cable to watch Kanopy on your TV. For more information on how to get started and what's available, be sure to check out our Kanopy Review. Pros: Cons: No Advertising Wide Range of Topics, Especially If You're Looking for Documentaries or Educational Movies Limited Five Monthly Video Content Not Downloadable You'll Have to Log In or Create an Account to Stream Hoopla Major Genres: Action and Adventure, Children's, Comedy, Documentary, Family, Romance, Sci-Fi, Thrillers Best: No Advertising, Offline Viewing Platforms: App (phone/tablet), Computer (website), TV (app/casting) Hoopla is a digital Midwest tape service that is a leading provider of entertainment and media for public libraries across North America. You'll find digital videos (movies and TV shows) as well as music, audiobooks, e-books and more from more than 1,500 libraries. Hoopla works just like a public library, which means you can instantly take digital movies at any time using a library card. If you don't have an account yet, you sign for free online. You will need to log in to be able to borrow anything. Once you've logged in, you can see featured titles, everything you've now borrowed, recommendations based on what you previously borrowed, what's popular and everything you've added to your favorites. You can also press the view button at the top of the screen or search for names using the search bar. Once you find the title you're interested in, you can see the details of the movie and the description as well as the ratings from other Hoopla users. When you're ready to check something, just click the lend button. You'll see a message to let you know how long you'll have access to the title (2-3 days) and whether it is available for streaming, download or both. The name will be automatically returned when it is due back. Once you have lent a movie or show, you can watch it anytime without advertising. Subtitles are also commonly available. In addition to movies and television shows, Hoopla also provides access to audiobooks, audiobooks, music and more. You can access Hoopla on any web browser or Apple/Android devices. You can also stream content through Amazon Fire TV, Chromecast or Roku. Pros: Cons: No advertising during TV shows and movies, which you borrowed Some content downloadable times checked a wide range of content and media You have to log in using a library card or create a free account to check out movies You can check out only five titles each month Crackle main genres: action, classics, comedy, drama, thriller, reality, original, documentary best for: Classic shows, comedy films, star favorites Platforms: App (phone/ Owned by Chicken Soup for Soul Entertainment and Sony Pictures Television, Crackle is a streaming service that has original content as well as TV shows and movies purchased from other companies. You will find both old and new shows/movies in a wide variety of genres that have hidden talents as well as famous names. As I scrolled through the featured categories, I learned Rock, John Travolta, Ashton Kutcher, Steve Carell, Gene Wilder, Chase Elliott and more. There's something for everyone in Crackle with lots of featured categories including Cars, Trains and Planes, Summer Rollback, Home School, Documentary and Classic. This free entertainment network is available on many popular platforms including web browsers, Amazon Fire TV Stick, Chromecast, Roku, Android and Apple Devices. A full list of supported devices is available on the website. With Crackle, you don't need to create an account to start streaming. But if you want to save any movies to watch later, you'll have to log on. Creating an account is simple and free; Just click in on the homepage to get started. If you create a free account or start looking at the right time, you still have to sit through a few ads. This means that you will have to disable any ad blockers before streaming online. According to the website, running commercials with affordable programming allows Crackle to ensure that the service remains free in the US and Australia. Before you start the movie, you'll see a couple of ads. Once it starts, you'll have periodic commercial breaks throughout the film. The video in the screenshot above is one hour and 40 minutes and you can see that there are eight commercial breaks after it starts. During ad breaks, I had the opportunity to choose whether I wanted to interact with the ad for 30 seconds or watch regular ads for a normal break (about 2.5 minutes). On the screen below the movie you'll see options to add it to the watch list later (if you logged in to a free account) them on social networks, see details of the film and check out similar recommended movies. In addition to the details and description, you'll also see Why It Crackles, which is a short blurb that Crackle thinks makes the film great. Pros: Cons: Great variety and and quality You can choose how long ads you do not have to create an account to stream Some movies and shows are only available for a limited time because of agreements with software vendors Content can not be considered offline IMDb TV Main genres: Comedy, Chills and Thrills, Action s Adventure, Romance, Documentaries, Sci-Fi, Family, Drama Best For: Hit TV Shows and Best Hollywood Hits Platform: App (phone/tablet), Computer (website), TV (app/casting) owned by Amazon, IMDb TV is another free, ad-supported streaming video resource. You can access content in the IMDb app, IMDb website, Amazon Prime Video app and Amazon Fire TV devices. You'll have to log in to access free IMDb TV content, but you can create an account for free. You can also log in with your Amazon, Facebook, Google, or Apple account to access the content. Once logged in, you'll be able to stream available movies and shows, add videos to your watchlist, and keep your place if you need to pause the video and resume viewing at another time or on another device. No matter how you choose to log in or what device you're using, know that videos on IMDb TV can't be purchased or uploaded for offline viewing. This means that you will have to watch a few ads. In the video pictured below, you can see that there are six ads in this 90-minute movie. When you watch a show or movie, you have the option to turn on the X-Ray feature. It shows small pop-ups in the corner of the screen with interesting facts pertaining to the scene you're watching. On the other side of the screen, you can customize closed subtitles, video quality, audio, and screen size. When I visited IMDb TV, I found several popular titles in the recently added section, including Shrek, Eat Pray Love and Seabiscuit. Other popular titles included the Sisterhood of The Wanderers, The Life of Pi and Third Rock from the Sun. In addition to hit TV shows and top Hollywood releases, you'll also find IMDb TV originals and a whole section of Hidden Gems. Pros: Cons: Popular titles and hidden gems Adjustable video quality (before HD) You can choose, to see interesting facts in all movies with X-Ray feature Limited Choice Content not downloadable You will have to log in or create an account for streaming Pluto TV genres: Comfort Movies, Sitcoms, TV dramas, action, comedy, drama, family, India Best: Live TV platforms: App (phone/tablet), computer (web site), TV (app/casting) On Pluto TV, you will find hundreds of free tv channels. Internet TV offers free, advertising-supported content that includes both TV's broadcast, and on demand. You can access Pluto TV online using your computer, iOS or Android device. You can also stream Pluto TV on Amazon Fire TV, Chromecast, PlayStation, Roku, Samsung and Vizio devices. I used my computer to visit a website online. When I first got to the site, I clicked Watch for free now to get started. From Ot I was able to choose from Live TV or On Demand at the top of the screen. On demand has several categories, including the genres listed above, in addition to popular movies, top TV series, new movies and more. If you are looking for live TV, you will find a huge selection of free channels. You can browse live channels by category including best, movies, news, reality, comedy, classics, sports, kids and more. You will see hundreds of popular television networks including TV Land, MTV, CSI and Comedy Central. With both live channels and on-demand titles, you'll see periodic advertising just like you would with traditional television. In my experience, ads tend to pop up around every eight minutes. Your won't need to create an account to start streaming content, but it's free to subscribe to one if you want. The account lets you track your favorite movies and channels, and get updates to new content. Pros: Cons: A wide range of titles on demand, as well as live TV channels You don't need an account for streaming part of Frequent Ads Content not downloadable Roku Channel genres: Family, Adventure, Drama, Reality, Anime, Sports, News Best for: Reality and TV Platforms: App (phone/tablet), computer (web site), TV (app/casting) Roku Channel is another free advertising resource that provides access to the TV channel you don't need to have access to the TV channel. It is also available in the web browser as well as iOS, Android and Amazon Fire TV devices among others. I used a computer to access the Roku channel's website. I was immediately asked to log in or create an account to access a premium subscription, continue to watch movies where I stopped, and get personalized recommendations. However, the account is not required to stream content. I had to disable my ad blocker before watching anything though. In the film above, you can see that there are six commercial breaks throughout the film (1 hour, 37 minutes), which means you can expect an ad about every 16 minutes. Closed signatures are also available for most films. At the time of writing, the Roku channel included several popular on-demand titles including the entire Twilight saga, How to Teach The Dragon, Hairspray, Enchanted and Keepers. Live TV channels have included Now This, Tastemade, DIY Daily, TIME and USA Today among others. Pros: Cons: You don't have to create an account for streaming content on demand titles and LIVE TV Relatively few ads compared to other free movie sites Content not downloadable Premium subscriptions require paid membership Tubi genres: Action, Classics, Comedy, Documentary, Drama, Family Movies, Foreign Movies/TV, Indie Films, The show is best for: Reality TV and Kids Platform Shows: App (phone/tablet), computer (website), TV (app/casting) Tubi is an ad-supported streaming service that is owned by Fox Corporation. You'll find thousands of movie movies TV shows that you can stream legally and for free through Tubi. To get started, visit the website online or download the app using one of the following types of devices: Android, iOS, Roku, Apple TV, Amazon Fire TV, Xfinity X1, Xbox, Samsung Smart TV, Sony Smart TV or PlayStation. For a full list of supported devices and as a Tubi stream, visit the website. In addition to movies on demand, Tubi offers on-demand shows from TV channels including ASE, Fox, Lifetime and more. I found several popular reality shows including The Bachelor and Mom's Dancing, as well as quite a few old movies including Ernest Goes to School, Temptations and more. When I checked Tubi, I visited the website online. I didn't have to create an account to start streaming. Instead, I was able to pick a show and watch watching right away. When you find a movie or show that you would like to watch, you can press the play button to immediately start streaming. I didn't run any ads on the videos I watched, but you can expect them to pop up several times throughout the movie or show. You'll have to disable the ad blocker to start streaming. Under the film you're watching, you'll see a brief description, production details and suggestions for titles that you might also like. Pros: Cons: You don't need an account to stream content Adjustable video quality until HD Rare Ads Content Not Downloadable There is not a large selection of known YouTube movie titles genres: Animated/Children, Documentaries, Comedy, Action and Adventure, Romance, Classics, Horror, Drama Best For: Family and Kids Programming Platform: App (phone/tablet), computer (website), TV (app/casting) If you can access YouTube, you can access free videos. In addition to the original content uploaded directly by users, you can also check out the wide range of movies available on YouTube. While YouTube TV requires a subscription, there are favorite titles that you can watch for free. To see the current selection of movies that you can watch for free, visit this YouTube page. You will find several popular children's titles, documentaries and classic favorites. While you don't have to create an account to watch or watch some free movies, you may have to log in to check your age if the title is rated R. Once you've chosen the movie to watch, just click on it to start streaming. The ads work just like they would on any other YouTube video, and the media player should also look pretty familiar. You can set up a private subtitle mode, quality and screen if you watch online. Below the film you will see a brief description, including details and user comments. Pros: Cons: You don't need an account to stream short content, rare ads tons of options for kids and family movies Not all movies are free to watch, even with ads. Limited Choice You can not sort free movies by category Popcornflix genres: Drama, Action, Horror, Thriller, Comedy, Romance, Sci-Fi, Mystery, Family, Foreign Films, Documentaries For: Independent Movie Platforms: App (phone/tablet), Computer (website), TV (app/casting) Popcornflix is a free ad-streaming service owned by Screen Media Ventures, which was bought by Chicken Soup for the Soul Entertainment in 2017. You'll find movies, TV shows, web series and viral videos on Popcornflix. The site mostly has independent movies, making it a great place to look for hidden gems. Once you decide on a movie or show, you can start streaming instantly after one or two previews. You don't have to create an account to stream media on Popcornflix, but you'll have to suspend or disable any ad blockers. Advertising is more like the ads you see while playing online, and you have the option to skip some ads after a brief preview. Along with the video you watch, you'll see sidebar options that allow you to see what's playing next, what others are saying about videos, GIFs created from the movie and more information about the movie. You can access Popcornflix via a web browser on your computer or with your Apple TV, iOS device, Android device, Roku device, Amazon device or Xbox. Pros: Cons: Start streaming instantly without the account required to read other users' comments when they were originally left throughout the movie you won't find many famous titles, If you are looking for popular movies/TV shows Content not downloadable Vudu genres: Comedy, Horror, Family and Kids, Action, Adventure, Classic Films, Crime and Suspension, Drama, Documentary Films Best For: Hidden Platforms Gems: App (phone/tablet), Computer (website), TV (app/casting) formerly owned by Walmart, Vudu You can rent and buy movies from Vudu, but you will also find a selection of free movies and TV shows that you can stream with ads. There are 27 categories to choose from that feature free movies and shows including the genres listed above. You'll also find categories such as star favorites, the most popular movies and hidden gems. To start watching videos on Vudu, you need to create a free account using your name and email address. Once you've logged in, you can instantly stream any name labeled for free with ads. When you choose a movie or show what you are interested in, you will usually have to watch 2-3 advertisements before you get started. After that, you can expect the ads to pop up periodically throughout the video. You can choose between SD and HDX quality video, and most titles come with additional closed subtitles. Vudu is available Roku, Android, Apple, PlayStation and Xbox devices, as well as online through any web browser. Pros: Cons: A wide range of free movies and TV shows My Vudu tab allows you to track what you watched/want to watch You will need an account to start streaming Content Not Downloadable Not all movies and TV shows free Crunchyroll Main genres: Anime (action, adventure, comedy, drama, drama, drama, and more) and drama (Chinese, Japanese, Korean, and more) Best for: Anime Platform: App (phone/tablet), computer (website) and TV (TV app/casting) Crunchyroll is a WarnerMedia company that streams anime in more than 200 countries and territories. If you're a fan of anime, this is a free streaming resource for you. You'll find both popular titles and Crunchyroll originals available for free. Scrolling through the popular anime show, I've seen over 1,100 episodes of One Piece, over 140 episodes of Black Clover and over 90 episodes of My Hero Academy at the time of writing. Other popular titles include Attack on Titan, Naruto and hundreds of others. Most of the content has a Japanese voice acting with English subtitles, but there are several shows that are duplicated in English. While you don't need to create an account to stream content through Crunchyroll, you'll see ads encouraging you to pay for a premium membership. Membership allows you to watch unlimited ad-free shows, access new episodes an hour after their premiere and download the show to watch offline. However, you can stream online for free (with ads). Just note that the newest episodes may not be available immediately. When you choose a video, you can start streaming online instantly without having to log in. If you want to add a video to the queue to watch later, you need to create a free account. I didn't have to disable the ad blocker to start streaming, and the ads only appeared a couple of times in a 25-minute episode. Pros: Cons: Infrequently, short ads in all videos You don't have to create an account for streaming shows, manga and games available in addition to movies New releases are only available premium members Content can not be downloaded, If you have a premium Yidio subscription genres: Drama, Romance, Comedy, Action, Adventure, Kids and Family, Horror, Crime, Mystery, Animation Best For: Variety Platforms: App (Phone/Tablet), Computer (Website), TV (app/casting) Unlike other websites on this list, Yidio is a video aggregator that collects links to video and tv shows. Instead of seeing a media player and watching videos directly on Yidio.com, you can instantly search for titles on various other platforms including Tubi, Vudu, Crackle, Roku Channel and over 100 more. While you'll see videos from paid streaming services such as Amazon Prime, Hulu, Disney, Netflix and others, you can filter your results with free movies or free TV shows. For most video links to Yidio, you can watch online through any web browser, from your smartphone or tablet, via a streaming media player or on game consoles. For a quick help on which streaming services on what devices, check out this resource from Yidio. You don't need to create an account to use Yidio, but subscribe to one for free if you want to track your favorites. Once you've found the video you've you to see, just click on the headline to see where it is available for free. For example, I clicked on The Shining. I can see that it is available on some paid subscription services and for rent online on Amazon, Vudu and

elsewhere. But it seems to be completely free through IMDb TV. As soon as I clicked the character of the game next to it, I was redirected to the IMDb TV website to watch the movie for free. If you have a specific name in mind, Yidio is a great resource to check out and see if it is available for free online. Pros: Cons: Thousands of movies from multiple sources, some of which are free You don't need an account to use Yidio You will find links to movies as well as TV shows No movies available directly on Yidio, which means that you should always visit the second website Not all movies are available for free final thoughts After all, any of these websites are worth checking out if you are looking for free movies online. If you're looking for popular names in Hollywood and hit TV shows or movies, check out Crackle or IMDb TV. If you have a library card, you can visit Hoopla or Kanopy for a full free experience. Crunchyroll is an excellent resource for watching free anime shows and movies, while Tubi and YouTube provide access to a wide range of movies for families and children. For Live TV, check out Pluto TV and The Roku channel. If you are more interested in independent movies and hidden gems, you may find something you will enjoy on Popcornflix or Vudu. Finally, if you have a specific name in mind, check out Yidio to see if it is available for free on any of these websites. No matter where you decide to watch free movies online, just make sure you do it legally and safely. While you may want to disable an online ad blocker or enter an email to create a free account, you don't have to download anything to your computer or enter any payment information. What are your favorite websites for watching free movies? Let us know in the comments below! Other ways to find free entertainment: Entertainment: Entertainment:
